

Attention:

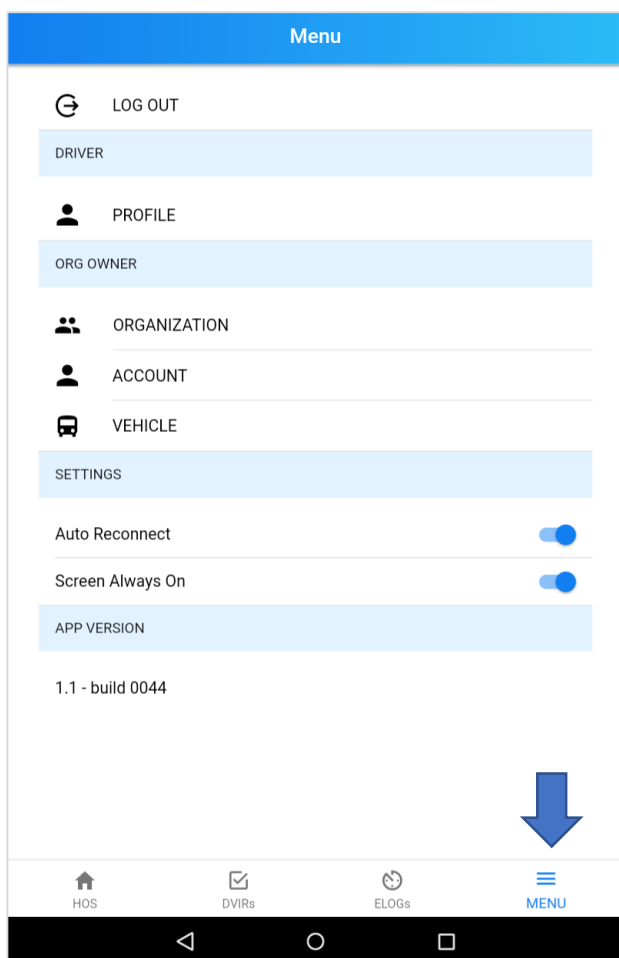

49 CFR 395.22 (g)

If a driver uses a portable ELD, the motor carrier shall ensure that the ELD is mounted in a fixed position during the operation of the commercial motor vehicle and visible to the driver when the driver is seated in the normal driving position.

A driver using an ELD must have these items onboard the commercial motor vehicle (CMV)

1. An ELD user's manual for the driver describing how to operate the ELD, and step-by-step instructions to produce and transfer the driver's hours-of-service records to an authorized safety official;
2. A supply of blank driver's records of duty status (RODS) graph-grids sufficient to record the driver's duty status and other related information for a minimum of 8 days.

How to Setup your Company, Drivers, and Vehicles Account

Account Setting:

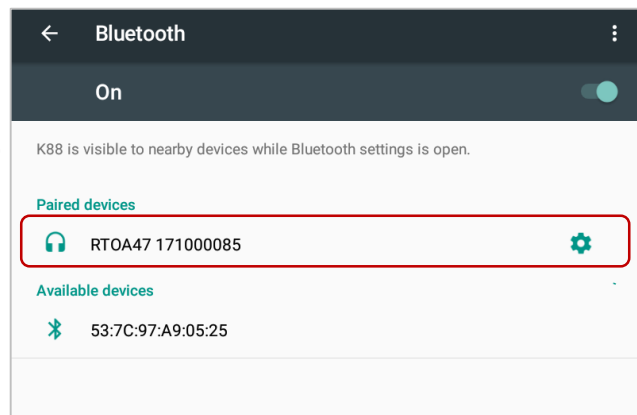

Before start your log make sure you have to input your company information, and create Driver and Vehicle Account.

If you are driver your dispatch manager should create driver and vehicle accounts for you.

How to Connect ELD Interpreter with your Tablet/Phone

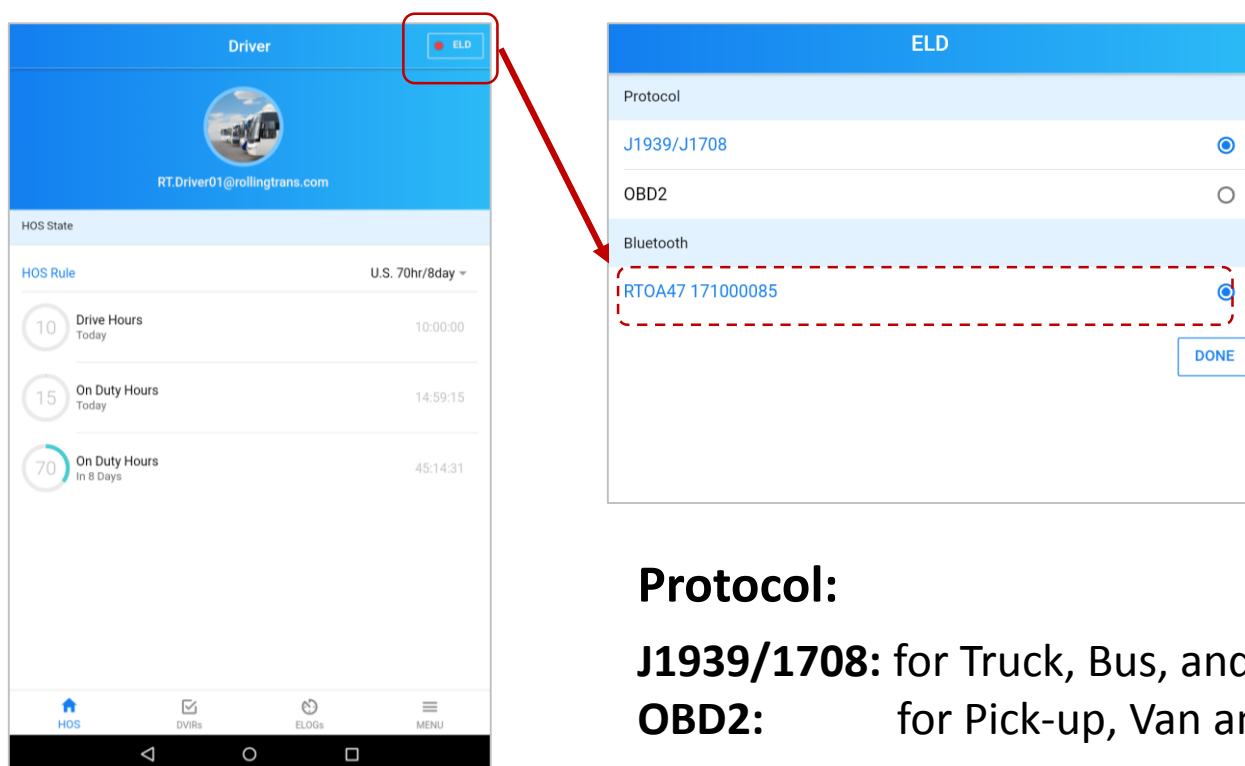

Bluetooth Pair with Tablet/Phone:

1. Connect our ELD interpreter with cable to your vehicle's ECM port (9pin, 6pin or OBD II). Then Start and keep your Engine running
2. Go to your Android or iOS settings and go to Bluetooth.
3. Search for Bluetooth Device and Pair

Rollingtrans ELD APP Sync with ELD interpreter:

1. Open and log in Rollingtrans ELD App
2. Click top right corner's ELD button
3. Choose your Protocol, and click the Bluetooth Device to sync
4. Once you sync with ELD interpreter the ELD button light will turn to green

Protocol:

J1939/1708: for Truck, Bus, and Ford 650

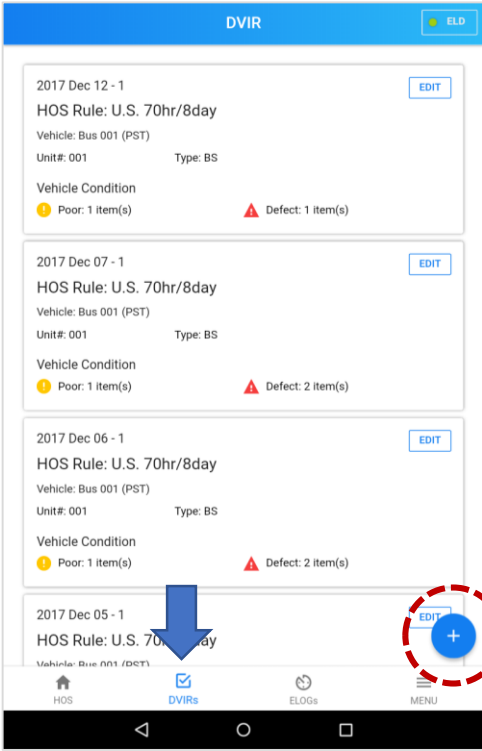

OBD2: for Pick-up, Van and Sprinter

How to Create Your New Log for Today

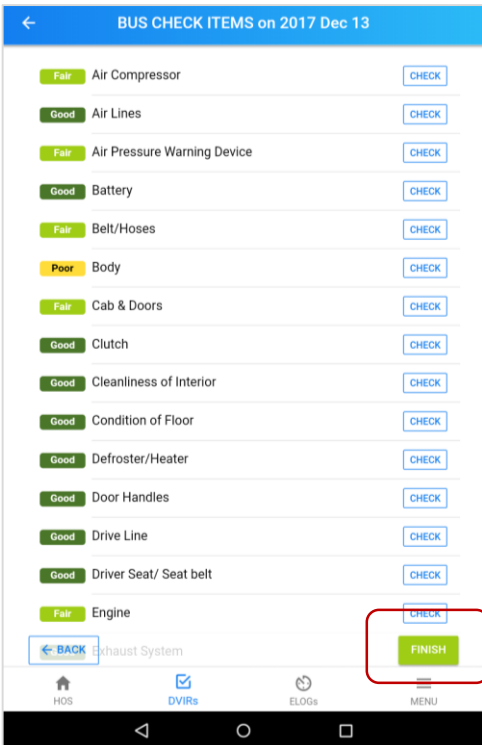

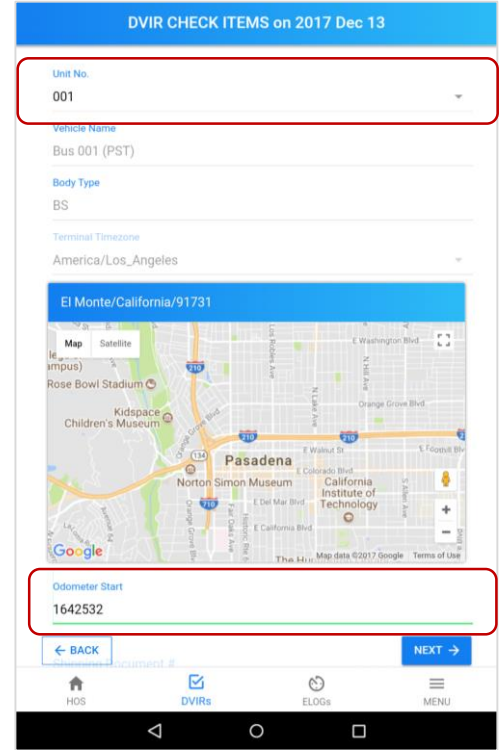

1. Create New DVIR

To Create your new Log today, you need to start from new DVIR

1. Select Vehicle
2. Input starting mileage and all shipment and trailer information

Create New DVIR

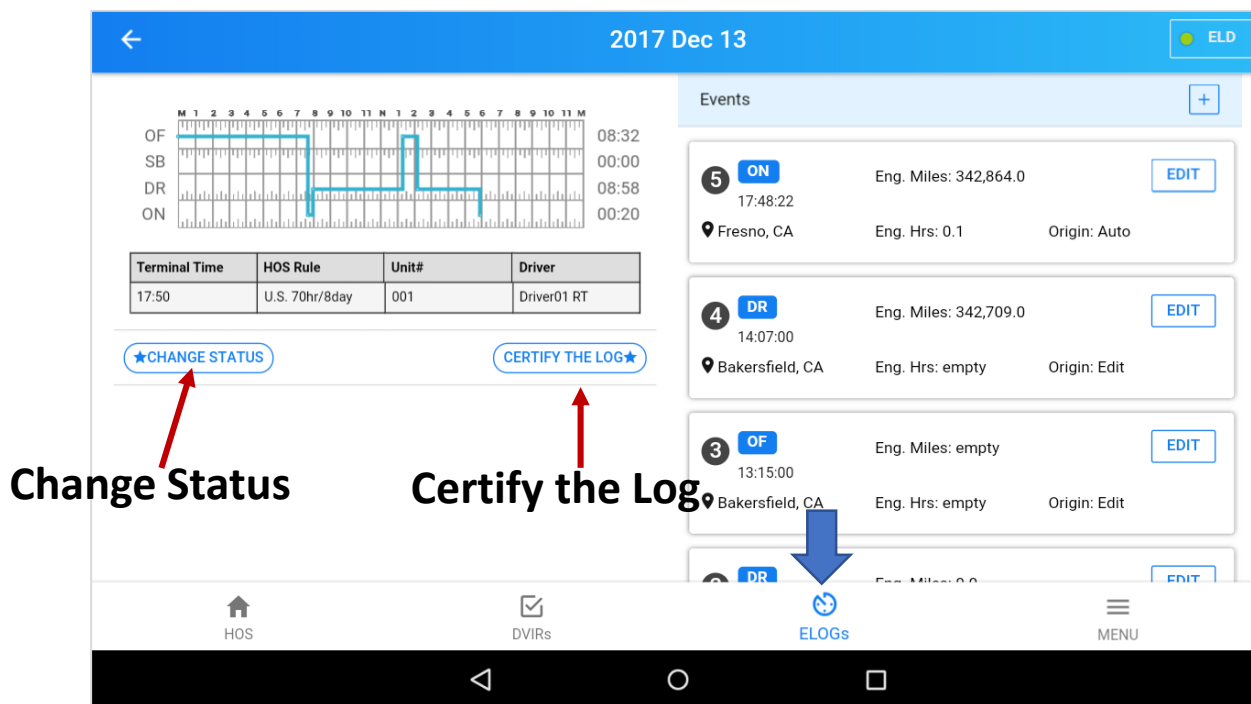

Vehicle and trailer inspection

Click Finish when you complete inspection

Rollingtrans ELD Quick Start Guide

2. Go to Elog

Click Elogs Tab in the bottom functional bar and select today's Elog for the list

Certify the Log:

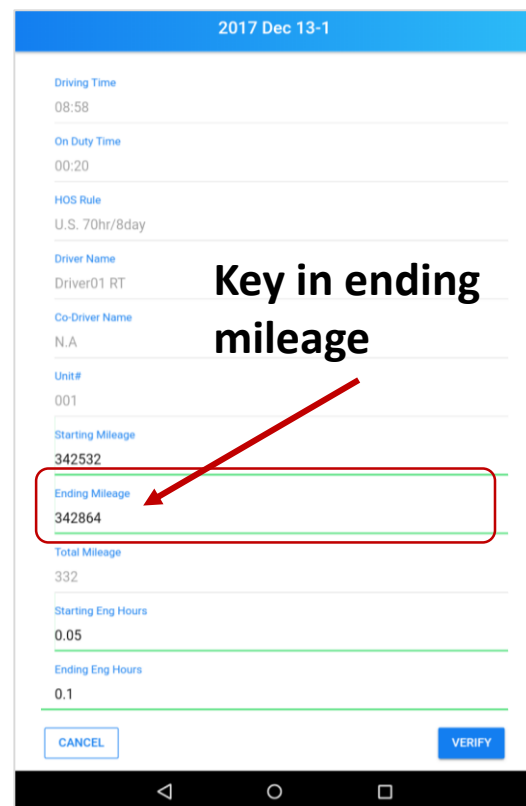

At the end of the day, please follow the procedure to certify your log

1. Turn off Engine
2. Change Status to **OFF** or **SB**
3. Click Certify the Log and key in the ending information

Reactivate the Log:

After you certify the log you are not allow to add/edit the log. If you need to drive or need to modify the log again, please click reactive the log.

Remember to certify the log again after you finish your drive today or modify the log

How to Display and Send Your Driver's Log

Go to eLogs list:

1. Click the Red button on the bottom right corner
2. You will see two option to display and send your driver's log

Option 1: Submit to FMCSA Web service

Select date and key in Safety Authorized Officer's inspection code in comments and click submit

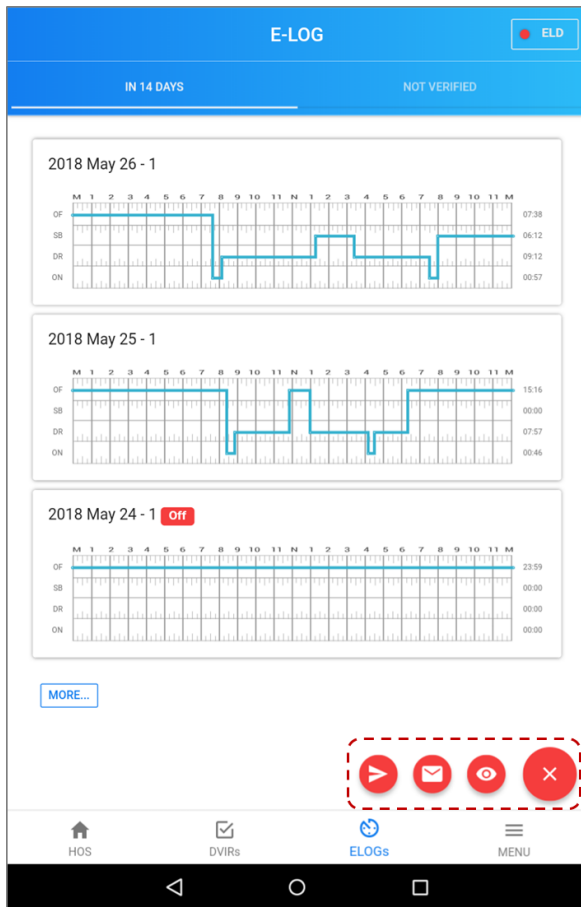

Option 2: Mail option

Select the date and including days and key in Safety Authorized Officer's designated email address to send your HOS record PDF output file to him/her.

Option 3: Display on the Device

The App will display you past 8 days HOS record on the screen for roadside inspection.

ELD Malfunction Trouble Shoot

No.	Issues	Action
1	Can not find Paired ELD interpreter in App	Close the APP and open again to refresh Android: Please click Android function key in the bottom to pull out all Apps and close Rollingtrans ELD iOS: Double click home button to pull out all Apps and close Rollingtrans ELD
2	Can not Pair with ELD interpreter	Make sure no other phone or device paired and connect to your ELD interpreter. Bluetooth device can only pair with one Table/Phone at once.
3	ELD interpreter Paired and see green light in App but still not sync with App or won't do auto switch driving status	Check the ELD Protocol you choose is correct. You should choose: J1939/1708: For Truck, Bus, and Ford 650 OBD2: For Pick-up, Van and Sprinter
4	Can not open new log	Make sure you certify all of your previous log before you create a new log .
